FREIGHTLINER

BUSINESS CLASS® M2 112 NATURAL GAS

Shaping Future Transportation.
CleanDrive Technologies.
A Daimler Initiative.

Natural gas. A clean alternative.

The Freightliner Business Class M2 112 Natural Gas work truck uses the cleanest technology available and is designed for a broad range of applications. The Business Class M2 line of trucks offers unparalleled benefits that help businesses increase productivity, performance and profitability.

The Business Class M2 112 Natural Gas truck is powered by the Cummins Westport 8.9: ISL G engine. The Business Class M2 Natural Gas truck is more than just a vehicle. It's a clear business advantage.

THE CLEAN ALTERNATIVE

Freightliner has teamed up with Cummins Westport to deliver a natural gas alternative to traditional diesel power in a proven, reliable truck engineered for a broad range of applications. The Cummins Westport Natural Gas engine meets EPA 2010 and CARB emission standards.

The Business Class M2 Natural Gas Class 7/8 truck and tractor is ready to provide you with a clean alternative in LTL/Regional Haul and Distribution applications. Other applications such as government/municipalities, construction, P&D, utility and services are currently under development.

A GREENER BOTTOM LINE

Lower alternative fuel costs, improved fuel economy and lower incremental maintenance costs of the ISL G engine make it possible to save valuable fleet dollars. Its maintenance-free exhaust and lower life cycle costs help work to green-up your bottom line. You also may be able to take advantage of programs such as the Federal Highway Energy Bill to cut your operating costs even more. Federal Vehicle Tax Credits and Infrastructure Tax Credits are available to green fleets.

A GREENER TOMORROW...TODAY

It's been mandated in many applications. Green is going to be the color of tomorrow's fleets – and Freightliner has a solution that fits and complements its broad line of Class 6-8 trucks. Now, with Freightliner and Cummins Westport, you can begin taking advantage of the cost and performance benefits of natural gas truck technology.

FREIGHTLINER SUPPORT

Freightliner builds Class 6-8 work trucks that help keep America working. And they are backed by a support network of dealers, truck experts and highly trained technicians, ready and able to keep you up and working with:

- Custom Financing
- Full Service Leasing
- Technical Sales Support
- Fleet Support
- 24-hour Customer Assistance
- Overnight Parts Delivery and Roadside Assistance

The Cummins Westport ISL G engine evolved from the proven Cummins ISL diesel currently in operation in many fleets today.

This cost-effective, high performance engine is packed with important features that have a positive impact on vehicle life cycle costs.

- EPA 2010 and CARB emission standards compliant at:
 - 0.20 g/bhp-hr of Oxides of Nitrogen
 - 0.01 g/bhp-hr of Particulate Matter (PM)
- 35% more torque at idle than previous L Gas Plus Natural Gas engines
- Greater efficiency
- Maintenance-free exhaust system
- No DPF regeneration, cleaning or replacement
- Improved fuel economy
- Reliable/durable
- Highest power-to-weight ratio in its class
- Shares many components and parts with ISL diesel engines
- Available ratings match Allison transmission offerings
- Domestic fuel source
